
New Gui For Booga Booga Cool Features, Teleport, Speed, Jump

4 Booga Booga brought a new bug. The tree icon no longer appears in the inventory or crafting menu. However, it will still show up when dropped. Random. A few days ago, players noticed that when trying to use the crafting menu, as well as when creating items and loading into the inventory, the tree icon is no longer displayed. As it turned out later, it was a mistake. The developers are currently working on a fix so the tree icon will still not show up. But it will still show up when the tree falls while crafting. Recall that 4 Booga Booga was released on PC on December 10, 2019.
