ShowDesktop Alternative With License Code X64

Hide all windows, dock icons, taskbar, and the system tray: This small utility will help you quickly access the desktop and it does this through a tray icon. You can display all the desktop icons in one icon or set up a custom view, thus eliminating having to see every active window in the taskbar and system tray. It also has a neat option that will let you show or hide the free memory in a system tray icon. Main features: * Provides a quick method to hide all active windows as well as to show the free memory in an icon * It doesn't include complicated options or configuration settings, making it accessible even for users with little experience in this kind of desktop enhancement tools * It's possible to delete or restore the original icon, show the free memory in the tray icon, as well as prevent ShowDesktop Alternative Free Download from automatically running at Windows startup * The program doesn't add new entries to your system registry or need libraries or other components to run * It's possible to set the icon size * It's possible to set the starting position of the tray icon * It's possible to display the free memory in the system tray icon * The program has a tray icon activation option * The program can automatically run at Windows startup * It works under Windows 10 Smart Launcher v5.17.4.4APK Smart Launcher is an application launcher with many features, including a grid view for apps, a dashboard, a workspace, a favorites and a clean interface. The launcher app is divided into five different sections: Home, Apps, Photos, Music, and People, which can be organized in folders that can be freely renamed. The custom search feature allows you to search for apps, contacts, settings, and more with just a couple of taps. The Smart Launcher includes a scheduler widget that allows you to schedule the launch of your apps, as well as an alarm clock, a wallpapers option, a widget to add apps to the homescreen, a screen mirror option, a drawer to store widgets, and many more. The app is included in the Google Play store, as well as in the Microsoft Store. Some of the main features of Smart Launcher include: Home: It is where you can access the folders of the different sections of the launcher and also find the custom search feature. Features: It has a customizable dashboard, a drawer, and a widget. People: It allows you to access the contact list and profile
