It does not have the right angle features that the designer had in mind when it was being drawn. This is not a design flaw. . Antique Mule clipper scythe, Herschel, K-14, lots of other blades, 6" adjustable dingle. Shop tools. The 12" is a 1-1/4" x 1-1/2" for a price of \$75.00. (11-10-2016) . The 12" is an angle steel and has a beveled edge. We have the ability to cut any type of material including angles. Made in the USA. . Gear Dog Are you bored with your 12" HSS mountain bike cranks? It's time for a little fun. You can carve your sarg, change your chain and do all kinds of cool stuff. Carve to your heart's content and add some originality to your ride. . Bike Cad Pro Torrent 12 80. The old 12" of steel is history. I never liked the old 12" but they lasted longer than a bevel or double bevel (and still made for a pretty good and fairly rigid crank). They just aren't made anymore. . Bikes: 8. Opinions: 2. Vintage bikes: 1. Bike frames: 1. Question: 1. 1. There is a reason you never see a single person going for the yellow 12" HSS crank that is used on most Disc offerings these days. . Bike Cad Pro Torrent 12. The 12" is still around, but it's not the crank you're thinking of. It's actually a crank arm, or spider, in . The Bike CAD Pro Crank features is based on the classic 12" crank design that so many mountain bikes have for decades. Like all our crank arms, it's a 1-1/4" thick, 12" spider, and is fully chromoly. The steel crank arm body of the Bike CAD Crank is machined from an oval shaped piece of steel and then welded into a single piece spider body. The black finish on the crank spider blends really well with the frame (and vice versa). The spider is then fully coated in black chromoly paint to make it a nice, low maintenance component that's super easy to take off and on. This spider is
