Sunbeam Diary

Okay, let's show off here. This is what Sunbeam Diary looks like. Many people will be surprised at this point, I myself was, "Shhhhh, I'll keep this a surprise," and I'm sure you'll feel the same. Well, anyway..

The entire game is full of Sunbeams. At the end of Chapter 1, there's a Moon Garden, and you can interact with it at any time. On the other hand, the level 3 Sunbeams have been officially revealed (excluding the Black Knight Sunbeam). If it turns out that you want to see the level 3 Sunbeams when playing the game, you're not alone. There's even a request for it. Please trust and respond to it! Thank you for your understanding.
