What's New In?

WL Orders Manager is a software application used for accounting purposes, that is specially designed to simplify the organization of the data and workflow connected to your small or medium business, so as to help the user understand it. It comes with a simple graphical interface, which is well-organized for the user to perform all the necessary tasks. You can start by selecting a file to organize, which will automatically turn it into an inventory of your products and clients. You can then add a product, customize a logo and a product for the product, as well as add specific features or options to the product. You can also define the price to be associated with each product, the taxes to be used for each product and the national language for each product. When it comes to ordering, you can place an order, generate an invoice and send an email to a customer. FILED NOT FOR PUBLICATION JAN 13 2013 MOLLY C.
